FRENCH H₂ COMPANIES GLOBAL DEVELOPMENT

JUNE
2026

Monthly Briefing | Europe

Air Liquide
TEAL
mobility

Rotterdam (Netherlands)

Air Liquide deploys its first two hydrogen-powered trucks in the Netherlands, manufactured by MAN and operated by Schenk Tanktransport, to deliver hydrogen to supply stations in the Rotterdam area using TEAL Mobility's 700-bar Roosendaal refuelling station, with plans to expand the fleet across the Benelux region if the pilot proves successful by the end of the year | [June 29](#)

KHIMOD
ALCEN

Belgium

Khimod reaches an agreement with Belgian chemicals company Ajinomoto Omnicem to integrate its flow hydrogenation technology into Ajinomoto Omnicem's continuous flow platform, enabling scalable, continuous hydrogenation for pharmaceutical APIs (active pharmaceutical ingredients), green fine chemicals, and specialty ingredients | [June 30](#)

Norway, Denmark, Sweden & Finland

Beyond Aero appoints Denmark-based Huginn Aviation as its Area Sales Representative for Denmark, Norway, Sweden, and Finland to build a Nordic customer base and ecosystem for its BYA-I hydrogen-electric business aircraft | [June 24](#)

Aabenraa (Denmark)

ENGIE and European Energy sign a cooperation agreement to develop a 150 MW renewable hydrogen project near Kassø, with ENGIE securing offtake rights for over 20 kt/year of hydrogen that will feed industrial and mobility demand in Germany via the future Danish-German hydrogen backbone, with start-up targeted around 2030 | [June 9](#)

Valencia (Spain)

INOCEL's 200 kW hydrogen fuel cell generator is being tested by ACCIONA at the Port of Valencia's North Terminal to power a tower crane used in KUGIRA caisson manufacturing, replacing diesel during the validation period running until mid-June | [June 8](#)
